

The ultimate power source...

OPTIMA[®]
BATTERIES
THE ULTIMATE POWER SOURCE™

Overview

As the world's most advanced power source, Optima Batteries are used extensively in more than 60 countries across the globe, providing power solutions across a broad spectrum of applications. Using the very latest developments in SpiralCell technology, originally used in the lunar rovers, Optima Batteries not only consistently outperform all other types of battery currently available, but do so by considerable margins. Optima Batteries can be used in a wide range of applications from heavy plant machinery, agricultural equipment and commercial marine through to classic cars, ICE, wheel chairs and golf buggies.

Range

REDTOP – STARTING

YELLOWTOP – DUAL POWER

BLUETOP – MARINE

- **Absolutely maintenance-free**
- **High vibration resistance**
- **Improved cycle life**
- **Extended storage life, high resistance to corrosion**
- **Totally spill-proof, flexibility of fitment position and location Faster recharge, higher discharge performance**
- **Improved performance in extremes of temperature**
